POLICY: The Americans with Disabilities Act provides protection for all people with disabilities, requiring that individuals with disabilities be provided with the same rights and services as the general public. Morris Hall Senior Care Communities provides assistance to all our residents who require more than assistance of a mobility aids such as walkers, canes etc.

Our Elders and Residents who wish to participate in trips and outings in our Assisted Living are required to sign up for the trip at least an hour prior to the trip with sign-up sheets posted for at least one week in advance. Trips are also posted on the monthly calendar.

Once the reservation is made by the resident of assisted living, the activity coordinator or director will make a decision on the reasonableness of the request with certainty. This includes need for securements of wheel chair, as there are only 2 securement spots.

Our Elders and Residents of St. Joseph's and Morris Hall Meadows Long Term Care are offered trips through resident/house council, personal invites, reminders, and through personal trip preferences based on a leisure history and current interests.

Once the trip is planned for the Long term care facility the activity coordinator or director will make a decision on the reasonableness of the request with certainty. Factors that may affect the trip attendance may include time, Medicare requirements for therapy and lack of securements.

Whether the request is accepted or denied, the resident will be informed by the activity coordinator or director with specific reasoning supporting the decision which shall be given verbally and in writing.

The Activity staff and Bus driver will be aware of the request or need for assistance and will meet the request and need of the resident.

If the resident passenger does not agree with the decision about the denial of the request. An appeal may be made in writing and reviewed by Toni Rembas LNHA, CTRS, Assistant Administrator for Morris Hall Senior Care communities.
